If you are a retired person or a senior citizen we ask that you specially consider an older (type of dog) to adopt. These dogs remain puppyish well into old age and can also live a long time. We want them to have their family right up until the end. The most frequent reason for a pet animals' later life abandonment is that their caregiver has to leave them for a nursing home and their family members do not always have space, desire or the ability to care for a pet left displaced by such an event. Please think about how YOUR age and state of health will affect your new dogs' future

All required areas must be completed or the form will not send.
